To help you fill in the rest of the form

In the enclosed **Information Booklet** we:

- explain the questions we ask,
- give advice on where you can get help to complete the form,
- tell you how to answer the questions, and
- give you examples of other things you can tell us.

Where you see ⓘ you can use the **Information Booklet** to help you understand and answer the questions.

What you need to do

- Complete this form in ink.
- If you're filling in this form for someone else, tell us about them, not you.
- If the impact of your health condition or disability varies, you may find it helpful to complete a diary to help explain your needs. ⓘ Page 3 of the **Information Booklet** gives advice on how to do this.
- It is very important that you provide us with any relevant evidence or information you already have that explains your circumstances. This might include prescription lists, care plans, reports or information from professionals who help you, such as a GP, hospital doctor, specialist nurse, community psychiatric nurse, occupational therapist, social worker, counsellor, or support worker.
- Please send photocopies of any evidence with this form. If you receive any additional evidence or information which may help with your claim at a later date, please send it to us as soon as possible. ⓘ Go to Page 3 of the **Information Booklet** for additional guidance on what information to send and how you can send it to us.

- Don't delay sending any evidence to us as this may mean:
 - We may not be able to get all the information we need on which to make a decision on your claim which accurately reflects your daily living or mobility needs.
 - We may need longer to assess your claim.
 - You may be required to see a health professional to be assessed when it may not have been necessary.

Please list below the documents you're sending with **this** form.

Tear off the letter on the front page; you don't need to send it back. On the last page you'll see the address to return this form. Place this form in the envelope provided so that the address shows through the window. It doesn't need a stamp.

We may also need to seek additional information and evidence from professionals who know you.

Q1 Please tell us who are the professional(s) best placed to advise us on your circumstances. For example, a GP, hospital doctor, specialist nurse, community psychiatric nurse, occupational therapist, physiotherapist, social worker, counsellor, or support worker?

my movements VARIES, ON some good days I use my walking stick for balance as the pain lays dormant, ON days were its unbearable I ask friends for assistance as I'm Anxious of falling or getting tripped up. This process is very frustrating tiresome and Painful as I live on a hill and have to climb up and down it. Normally when I get home it takes a good 1/2 hour for my body to get Relaxed to Even walk to the loo. Good days are like a 6 on a 1-10 Scale and Bad days can go to 9-10 very quickly.
